Professional Summary

Senior frontend engineer with over 6 years of experience in building enterprise applications and tools. I've worked on a variety of projects, from simple landing pages to large-scale apps, and I've developed a good eye for design while maintaining clean code practices. I can cover all areas of frontend development, from design to implementation and maintenance. My specialities are in making this look good and working on the code that makes it work. I take a keen interest in learning new technologies and tools, and I'm always looking for new challenges.
